

Meeting Log

Date: April 10th, 2025

Time: 5:30 PM - 6:30 PM

Location: Microsoft Teams

Objective: Check in on work for the Physical Design phase

Team Members Present: Holden, Michael, Blake, Logan, Nifemi

Task Completion Confirmation:

- **Everyone:** Everyone made data to be put into the database
- **Holden and Michael:** Began work for the CLI and connecting to database
- **Nifemi:** Wrote the script to import data (pending testing)
- **Logan and Blake:** Started work on the DDL

Physical Design Check In Session:

The primary goal of this meeting is to check in with everyone on the progress for the current phase because it is so much longer. This includes progress on creating data, connecting to the database, and work on the CLI. We will also discuss the next steps and have additional tasks allocated potentially.

Tasks Allocated:

- Logan and Blake will write the DDL. Blake will also finalize the configuration of the Amazon RDS deployment
- Holden and Michael will begin writing the python CLI for parsing user commands into PostgreSQL commands.
- Nifemi will write a script to populate the database with the fabricated data.

Follow-Up Actions:

- Schedule the next meeting for April 17th, 2025, at 5:30 PM to continue work on our physical database design.
